EDISONIAN 1994

the 1990s, the number of people in the UK with a mental health problem has increased by 50% (Mental Health Act 1983).

There is a growing awareness of the need to improve the lives of people with mental health problems. The Department of Health (1999) has set out a vision of a new mental health system, which will be based on the following principles:

- People with mental health problems should be treated as individuals, with their own needs and wishes.
- People with mental health problems should be given the opportunity to participate in decisions about their care and treatment.

The Department of Health (1999) also states that the new mental health system should be based on the following principles:

- People with mental health problems should be given the opportunity to participate in decisions about their care and treatment.

the 1990s, the number of people in the world who are under 15 years of age has increased from 1.1 billion to 1.5 billion, and the number of people aged 65 and over has increased from 0.2 billion to 0.4 billion (United Nations 1999).

There is a growing awareness of the need to address the needs of the young and the old in the context of the ageing of the population. The United Nations (1999) has identified the need to address the needs of the young and the old as a key challenge for the 21st century. The World Bank (1999) has identified the need to address the needs of the young and the old as a key challenge for the 21st century.

1994 EDISONIAN

Volume 53

A black and white line drawing of a hand holding a scroll. The hand is positioned at the top, with the index finger pointing down towards the scroll. The scroll is unrolled and held over a large top hat. The hat has a wide brim and a dark band around its crown. The scroll is partially filled with text.

The theme of a year-book must reflect on the school and what goes on in it. In the past year, there has been a greater emphasis on one of our rules. Our hats must be taken off when we enter the building. We're not sure why, but it's a rule, and rules can't be broken. Right? So as another year goes by, let's all remember to take our HATS OFF to Edison!

Student Life

What do you do in
your free-time?

Jennifer Perryman - Junior

"I work. But if I'm not working, I read, write, watch television, or hang out with friends."

Nona Chandler - Senior

"I go out with my friends and get in lots of trouble."

Jason Adams - Junior

"First, I go home and have a little snack. Then I go help my dad work for a couple of hours. After that, I like to play basketball for about two hours. Then I go home and relax."

Student Life

This section of the yearbook is unique in the way that it tells about the person rather than the student. It deals with the personality of a student. It goes beyond the classes, the homework, and the grades. Student Life is about feelings, not about knowledge. In this, you can be who you are and what you want to be, not who people think you are or what you are expected to be. Unfortunately, we cannot cover everything about everyone, we just try to give a general view of what goes on in a student's life. So hopefully now a student is better understood for the person that they are.

Toilet Paper

Have you ever TP-ed anyone's house or car?

Of the student body ...

74% responded "yes", 26% responded "no".

Out of the 74% who have TP-ed a house or car...

20% got caught,

80% got away
with it.

A tradition every school year during homecoming week is to TP a friend, an enemy, or teacher's house or car. Most of us, if you're being truthful, have TP-ed at least once. A handful of us have even been caught (as shown in the above box)! It's a part of the spirit of the week and a prank to pull on the people we love to tease. But, what about cleaning it up? The toilet paper is hard to get off of trees, especially if it's up high or wet. Spending your day off cleaning up your yard is not anyone's idea of a good time. Just remember the next time you're out cleaning it up, it's all in good fun.

What happens after a TP job? A cleaning job! After morning comes and the toilet paper waves in the wind as a statement to all that sees it, the fun must end. When it is all taken down, you realize what a waste it was just for a few laughs.

Cupid's Victims

No one can complain about not having a "sweetheart" for Valentine's Day. Thanks to the junior class, each student could choose someone from a list of their 10 most compatible people. On January 28 of this year, every student had the chance to take the *Heart to Heart Computer Compatibility Match* quiz. Some questions were: "What is your favorite season?" and "What is your favorite school activity?"

Then, on February 8, the results of the match came back, and on February 10, the results were sold for \$2.50. Wow, were some people surprised at the matches that they had!

Above right: Stephen Blankenkemper and Jennifer Martyka display their affection for one another on Valentine's Day.

VALENTINE'S DAY STATS

135 singing telegrams were sold (with *Rubber Duckie* as the most popular).

284 *Heart to Heart Computer Compatibility Match* results were sold by the junior class.

302 flowers (81 white and 221 red) were sold by DECA.

115 balloons were sold by DECA.

Above: Christine Owens, Kelly Steffus, and Claudia Martinez pass out *The Heart to Heart Computer Compatibility Match* results at lunch.

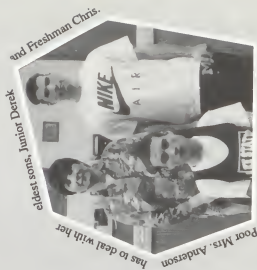

Happy Valentine's Day

Family Just Around the Corner

Junior Debbie Tsahas is lucky enough to have her cousin Miss Tsahas teach English here.

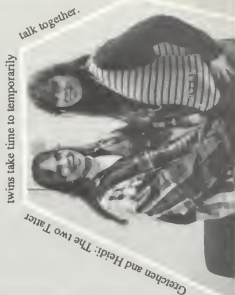

Poor Mrs. Anderson has to deal with her eldest sons, Junior Derek and Freshman Chris.

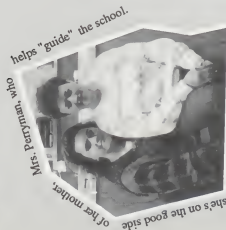

In this school system, there are many families. A large percentage of the students have a brother, sister, or both in school with them. Some even have parents, aunts, uncles, or grandparents that work here. Most of these students don't mind very much, but others may have a little problem with it. Who would want their families around not only at home, but at school, too? Whatever the feelings may be, they have to put up with it (as long as they are in school). So, maybe it isn't all that bad.

All three of the Martyka offspring attend Edison. Freshman Eddie leans on Junior Jennifer, who rests her chin on big sis, Senior Laura.

Gretchen and Heidi: The two Taller twins take time to temporarily talk together.

Mrs. Perryman, who helps "guide" the school, she's on the good side of her mother.

Junior Jennifer makes sure

Freshmen Crystal & Ron, get a

nutritional lunch.

Mrs. Nush makes sure

her children, Junior Shanna and

Senior Joe Redar and his Sophomore sister Beth don't have to go over the river and through the woods to get to grandma, Liz--- they can find her at a meeting of the School Board Members.

Siblings Junior Glen Hardin, Sophomore Brian Orris, and Freshman Stacy Orris see their Aunt Linda every day at lunchtime.

Junior J. C. Blankenbeker and his Sophomore brother Steve have to watch their every move with daddy Dr. Joe in the Superintendent's Office, having the ability to drop in at any time.

Student Life

Mary, Sue, Ann, Bob, Tom, and Fred aren't the most popular names anymore. Being unique is now the most popular thing. Some people even decide to keep the unique name in the family. Others even borrow the name from well-known people or figures.

*Hello
my name is*

Does the time, date, month, and year you were born; your zodiac sign; or your name have anything to do with your personality? You never know. It all depends on what you believe. Some think it's all nonsense, others base their life on it.

Fourth of July baby, Marcus Cruz, says he received his middle names, Thomas Jefferson, as a representation of the day he was born.

Both Nola and Lola Richardson were named after their grandmothers. Nola was named after their mother's mother, while Lola was named after their father's mother. It's just a coincidence that they rhyme.

C a r l e e
Fisher's parents chose her name with the influence of singer Carly Simon.

Romi Christina Coccia Spears is the youngest of 11 children. Romi, a Libra, says her zodiac sign has a lot to do with her personality.

Misty Dawn Bowling got her name from the weather conditions at the time of day she was born.

R i c c a
Gann's name is one that is common in her family. She inherited her name

from her grandmother, her grandmother, and her mother.

S c o r p i o
Angel Lopez says he is flirtatious and has mood swings, just like his horoscope reads. But he's still waiting for the great wealth the stars have promised him.

As the weeks of steady rainstorms turned into months, farmland, cities and towns in the Midwest suffered flooding of historic proportions. The Great Flood of '93 is the second-costliest natural disaster on record in the U.S., causing more than \$12 billion in damage.

It was a difficult year for Southern California residents. In the fall, brush fires swept over 200,000 acres, causing about \$1 billion damage. In January, an earthquake shook Los Angeles, destroying thousands of homes, closing freeways, and shutting down many schools. The quake, measuring 6.6, caused 57 deaths and an estimated \$30 billion damage.

Faced with allegations that he sexually abused a 13-year-old boy, Michael Jackson ended his world-wide "Dangerous" concert tour and sought treatment for drug addiction.

Seniors

What will you miss most about high school?

Mike Poweska-Senior
"What I will miss most is my friends and the good times we've had."

Marie Beck-Senior
"My naps."

Shanon Hamara - Senior
"I haven't really thought about what things will be like after high school. I know I'm going to miss everyone who has helped me make it this far, and I'm especially going to miss Mr. Glover screaming "baseline" in my ear at basketball practice. But I'm going to miss all of my friends, and everyone else that I struggled through school with the most."

Plans For After High School

Elsa Cruz

Larry Rowan

Delia Santos

Jesse Rodriguez

Carlee Fisher

Irene Ortiz

This year we have chosen six seniors to tell us what they would like to do after they graduate from high school. A lot of them chose to go to college for nursing, or to be a pediatrician. Here's what they all said: **Delia Santos** "After I graduate, I plan to go to Valpo. University to study nursing, particularly Pediatric Nursing because I enjoy being around little babies, and I think that's what would interest me the most. I plan on going to college for 4 years, and receiving my bachelor's degree." **Larry Rowan**: "Hopefully, I will continue in Graphic communications." **Jesse Rodriguez**: "Go into the Army Reserves, and after that continue my education. I hope for a career in Computer Repairs." **Irene Ortiz**: "After graduation I plan on going to Valpo. University or Purdue Lafayette, and majoring in nursing to become a registered nurse." **Elsa Cruz**: "The thing I want to do after high school is become a Pediatrician, I want to help people and make a difference. The reason why is because I like to make people happy, and not see them sad." **Carlee Fisher**: "I plan to go to Indiana University Northwest and work towards my bachelor's degree in either Respiratory Therapy or Pediatric Nursing. I really like being around babies and little kids, and I like helping people."

Underclassmen

Did an upperclassmen ever say anything to you that upset or embarrassed you?

Sara Fugate - Freshman

"I hate getting up early. I guess I'm not really a morning person. I wore a T-shirt to school one day that said, 'Perky Morning People Should Be Shot,' Karen McDaniel, a junior, started calling me Miss Perky. Well, the name stuck, and now everyone in my French class including Mr. Dobrich, calls me Miss Perky."

Fidel Lopez - Sophomore

"I was sitting at the lunch table with my friends when Melanie Pilnock and Vicky Moss came over and asked me a question. They said, 'What happens when you see Amber Schmidt in the hall?' Then they told me to read what was on a piece of paper aloud. I read it and everyone laughed and I was really embarrassed."

JUNIORS

This year the junior class has a new Sponsor, Mr. Christian. Mr. Christian said that "he enjoyed working with the group." But, he does "worry if Prom will be as memorable, successful, or enjoyable as people expect it to be." Mr. Christian also said that "it is hard to get them organized because of the many other activities, groups, and jobs that they are a part of." The class has sold Precious Moments items to make money to pay for Prom. The Juniors plan to try and raise more money throughout the remainder of the year.

SOPHOMORES

SOPHOMORES

Our 1993-1994 Sophomore class will be remembered for their involvement with all the activities. Mrs. Roberts and Mrs. Fields are the class of '96's sponsors. This year the sophomores are helping in raising money for their prom by having bake sales, fund raisers, and by winning the can food drive. Their meetings usually consist of the topic of prom and what fund raisers are needed to help with prom and its cost. Mrs. Roberts feels that the sophomores really work great together and hold great spirit.

School Board

Standing: Dr. Blankenbeker; Joan Rich, *Vice-President*; Liz Redar; James Vanderlin. **Sitting:** Roger Fisher, *Secretary*; Dr. Costa; Steve Beres, *President*.

Outstanding School Board

Indiana School Board Associates for 1993-1994 named the Lake Station School Board "outstanding" for having the majority of its members receive a certain level of training for the Board. The Associates have been looking at individual members all over Indiana since July of 1992 for participating in activities involving the School Board's curriculum. Roger Fisher, Elizabeth Redar, and James Vanderlin were three of the nine members from Northwest Indiana who were awarded.

Hats Off Main Office

BEHIND THE SCENES OF THE MAIN OFFICE

The main office is a vital area of the school. They help take care of greeting parents and visitors, answering the telephones, and monitoring student activities around the school. Calling students out of class for various reasons, compiling information, and putting together different reports and newsletters are more of the important daily activities.

A person must have a certain amount of schooling to hold a position in any office. To become a secretary, you must have a high school diploma. The administrators have to have a Bachelor of Science and/or a Bachelor of Administration Degree and a Masters Degree in Education. They must also have an Administrator's License from the State of Indiana. The bookkeeper must also have a high school diploma, and a Bachelor of Science Degree is good to have for the nurse's position.

Mr. Campbell has been a counselor since 1972. He enjoys working with young people. He deals with different problems including boy/girl relationships, student/teacher conflicts, personal problems, educational problems, keeping students on the path toward graduation, helping them choose their future, and work. He graduated from Bishop Noll and Indiana University with a Bachelor of Science Degree in Social Studies Education, he also has a Master Degree in Education. He began counseling when it was a new field. Mr. Campbell said, "I never have the same day twice. There is always something new with a new day of seeing things."

Mrs. Gertz is in her second year in Edison's Guidance Department. Originally, she started in the education field as an English teacher. In 1979, she decided she would like to return to school to get certified to be a counselor after working with At Risk Kids. Mrs. Gertz has the same responsibilities as Mr. Campbell, and she stated, "I help students with problems that range from personal to academic, really I have too many jobs to list."

Soar

Student Opportunities for Assistance & Resistance

Project Soar was established in 1992, which is a program offered to students who are having difficulty in school. Soar is offered to Lake Station students. It was established by the administration of Lake Station School Corporation. Students are referred to a Student Assistance team at Edison, who decides if a student should be sent to the program.

There are seven staff members and about 21-30 students in the program. If a student wants to leave Soar, the student must complete four levels. A student advances from one level to the next by earning points.

Points are based on behavior and must demonstrate that they are making an effort to complete their academic work as well as to come to school everyday. Students are sometimes put back in the program. This decision is made by the Soar staff and The Edison Student Assistance Team. Students do not always get sent back to the program. Soar assists students to improve attendance, academic performance, and behavior. Students are separated from their friends, and they have less freedom during the day.

Also, classes are much smaller. Students spend a minimum of sixteen weeks in the program. This program deals with chronic truancy poor attendance, defiance of classroom rules, repeated suspensions, and academic failure due to poor attitude toward school. Project Soar is an important program because it gives students an opportunity so they can succeed in school and to change behaviors that might cause them to be expelled or to drop out.

This year's Business Department is different from previous years. Business Law is taught all year instead of a semester. There is a new class this year: Business Communications. It is taught from the practical viewpoint.

The Business teachers are also doing things to better prepare students for the real world. New business textbooks have been purchased. Mrs. French said, "I would like to see computers added to our department, the advanced classes need to work daily on the computer (like Typing Applications I during the second semester and Typing Applications II)."

The Health and Physical Education Department has a lot of years experience, teaching and coaching sports. Mr. Hayes has been at Edison for 15 years and 10 years at Gary before that. Mr. Kreiger has been at Edison for 15 years, also. Miss Llewellyn has been at Edison for 12 years and 2 years at Knox before that. Mr. Close has been teaching for 27 years: 3 years in Michigan City and 24 years at Edison. He also coaches sports including: Junior High Football, Basketball, Junior Varsity Wrestling, Varsity Cross Country, and Junior High Boys Track.

This is the first year Mrs. Line is at Edison. All these teachers became teachers because they enjoy sports. Advanced Physical Education, Body Conditioning, and Lyches in the weight room are new classes taught this year. Miss Llewellyn takes her class on a field trip every year to Rays Lanes to go bowling. Miss Llewellyn says "People need to know that they only have one body that they are responsible for and that body has to last them the rest of their life!! People need to understand that they need to exercise their mind as well as their body!"

The Practical Arts Department has many different classes. Basic Black and White Photography, Drafting, Small Engines, and General Auto are the classes that Mr. Sickman and Mr. Koontz teach. Next year, a new class will be added: Manufacturing. Mr. Sickman has been at Edison for 10 years. He has a Bachelor of Science and a Masters degree. As a child he enjoyed building things, which directed him toward the teaching field. This year he took his photography class on a trip to West Beach.

Mrs. Roberts has been at Edison for three years. She has a Bachelor of Science degree in Home Economics from Purdue University. She decided to be a teacher in her sophomore year of high school because she admired one of her high school teachers. As a child she enjoyed cooking and sewing. All of her classes have a variety of "hands on" activities.

There are many different classes of Math to choose from including Basic Mathematics, Consumer Math, Transitional Math, Introductory Algebra, Algebra 1, Plane Geometry, Algebra 2, Trigonometry, Analytical Geometry, College Algebra.

and Basic Computer Math. A new class was started this year: Tech Math. A. P. Calculus is a new class that will be offered next year.

The teachers in the Math Department enjoy teaching. The staff is an important aspect of Math. When a student doesn't excel in Math, teachers can only try their best to help students. Students also need to try their best and receive encouragement from their parents because Math is an important part of life.

There are two languages taught at our high school: French and Spanish.

Mrs. Marrero, the Spanish teacher, has been teaching since 1975. She wanted to teach her native language. She has a good feeling about herself as a teacher and likes to run her class the way she wants. She is taking her students on a field trip to the Shedd Aquarium and Mi Casa Restaurant in Chicago. Mrs. Marrero feels great when a student learns Spanish and it makes her mad when a student is kept from learning Spanish. Mrs. Marrero says, "We have a strong Spanish Department because enrollment is good."

Mr. Dobrich is the French teacher, and he enjoys it very much. He had an early start in French because he lived in Paris in the 1950's. Foreign languages were part of his upbringing. French, Russian, English, and native Serbo-Croatian were the languages he learned. He is taking the French Club on a field trip in the spring to either the Art Institute or a French Restaurant in Crown Point. Mr. Dobrich says, "Foreign language broadens the scope of young people. It is also very important in education." The French Department is made of qualified and dedicated teachers to help with the success of the students.

English Goal : Improve Communications

The goal of this department is to improve communication skills. The idea is for the students to think, read, and write better as they progress in high school. In order to do this, students must go beyond book work and become more creative. The teachers gave students many different projects to do in order to execute this idea.

Students in English III wrote for publications and entered their writing in contests for specialized magazines that accept students' work. In Literature class, students designed posters advertising Lake Station. They also designed restaurant menus based on famous writers' names.

The Applied Communications students went to a business of their choice and learned how the business was run. This was done so that students would have some understanding of the demands of certain careers. This has opened young people's minds to what they need to accomplish in life.

UPDATING THE SCIENCE DEPARTMENT

The Science Department's goal for the '90's is to update the technology with the changes that are taking place all over the country. Teachers are trying to make science "real" for the students and to make it an enjoyable subject. They try to challenge students to think for themselves and apply what they have learned to everyday life.

Field trips are an important part of the science curriculum. The Advanced Placement Biology students went to visit Purdue University for the Outreach Visitation Program, where they got to visit the labs and see actual science at work. The Chemistry II class usually goes to the Observatory at Valparaiso University and to GreatAmerica for Physics Day. This trip shows how the laws of physics are used to design all of the different rides there.

History

No Trips in History to be Reported

When asked why History students never get to go on field trips, Mr Cosgrove, head of the History Department, said, "Field trips are only productive when they show students something which can not be performed in the classroom." So, instead, the Senior Class has had several speakers come in and talk to them about career opportunities and different types of schooling that are available.

The main goal of this department is to follow the state curriculum guide and give the students the best education possible. They do this in a variety of ways, since each of the teachers has his own way of teach the subject.

Why do you belong to organizations in high school?

Rachel Gonzalez-Senior

"I am involved because I want to make a difference (even though it may not be a big difference it still does count), to meet new people, to go on trips, and to get out of classes!!!!"

Jason Coslet - Freshman

"Something to do with my extra time."

Amy Piet - Junior

"To meet different people and have fun hanging out with friends."

The 1993-94 Peer Helpers are doing their best to live up to their motto of "friends helping friends". In order to do this, they had to go through tutoring training sessions. Their purpose is to help their fellows students with academic and personal problems. In doing this, they hope to accomplish an increase in grades or in understanding of personal problems.

Becoming a peer helper is not that easy. You have to go through an application, teacher recommendation, plus personal interview sessions to determine entry.

An Academic Team is a team of students formed to compete with area schools in spelling and other academic areas. This year was "a building year" for them. They showed steady improvement. This year the advisors, Miss Gawthrop and Mrs. Thompson, were impressed with everybody who participated.

The Spell Bowl Team was made up of students who spelled words individually. The Super Bowl Team was made into groups of three to five people who competed in different categories. These categories are Science, Fine Arts, Social Studies, Math, English, and Interdisciplinary.

This year was said to be "interesting!" Miss Gawthrop didn't know what to expect because this was her first year as a coach. Both sponsors are looking forward to next year.

This year's JETS Team had twenty-four students. There were three teams: one Varsity and two Junior Varsity. There were eight students per team. These teams competed at Purdue-Calumet and tested in English, Math, Science, and Computers.

The tests were comprised of objective and essay questions. The Varsity placed sixteenth and the Junior Varsity placed twenty-fourth and twenty-fifth.

According to Miss Girgenti, this year's band was okay. She didn't feel that any improvements were made from the bands in the past. Fortunately, there was a large class of seniors, with a great deal of talent, to play an important role in the band.

In order to obtain the new uniforms that the band needed so badly the sale of fundraisers was spread over a ten year period.

According to Miss Flock, the Men's Choir is growing in size. From their humble beginnings of three singers, they have expanded to eight men for the 93-94 season. These men participated in all four concerts this year.

This year's Women Choir performed at the 14th Annual Women's Choir Festival at Saint Mary's College in Notre Dame, Indiana, as well as District Contest in the spring.

The Chorale, a select group of men and women, had an outstanding year. Members participated in Solo and Ensemble Contest, both groups earned 1st in District and State. Amy Matlock received a 1st at District and State for her solo. The Chorale also performed at the District Contest in the spring. The Chorale was also involved in the Four Chaplin's Memorial Service at the American Legion, and the National Honor Society Induction.

This year the *Eagle Feathers* staff had it's share of problems.

First of all, they have gone through three different editors. The first was junior Elizabeth Dickens, then senior Rod Rollo, and finally sophomore Beth Redar. Beth finished the second semester as editor.

The staffers also had problems with the computers in the publications room in November and had to start that entire issue over from scratch the week the paper was to be published.

However, on a more positive note, the addition of four new Machintosh computers, a color scanner, and one laser printer has sped up the completion of each issue.

Through it all, the staff managed to produce eight papers and the senior wills, which totalled over 50 pages.

Some people ask, "What is yearbook class?" Well, in yearbook class, we work on layouts, look at other yearbooks, and try to create a masterpiece. A person has to have writing abilities to be on the staff. But there are people there to help you, too. It is fun putting a yearbook together, yet it is very hard. You have deadlines to meet, pictures to take, stories to write, and many memories to put all into one book. Our yearbook costs a great amount of money, too. So, throughout the year, we sell business ads, parent ads, patron ads, yearbooks, and also have fundraisers. Some of our fundraisers are Wicker Chair pictures and the Lip Sync, which we shared all profits with the volleyball teams. Yearbook class is really a behind the scenes look at how a yearbook is put together. So, if you are an incoming sophomore, junior, or senior and would like to be on the staff, talk to Mrs. Georgion, our advisor. It is a great way to be part of a little history.

This year Student Council was very busy. The members were, too-as you can see in these candid. Homecoming activities, State Convention, Christmas Food Drive, Rep. Assembly, and Lock-In were some things included in Student Council. This is Mrs. Plotner's second year being Student Council Sponsor and she has done a wonderful job, not to mention with the help of her seven officers. Student Council is a great experience and is a way to show off your school spirit. So next year if you want to become involved in many school activities, talk to a member or a class sponsor about joining. It will be unforgettable.

FBLA was set up by it's sponsor, Mr. Plotner, in order to get kids ready for today's world of business.

Mr. Plotner made a Free Enterprise Week where his students got in teams and sold apples against each other. Recently, the FBLA class went down to Indianapolis to compete in state conferences. While down in Indianapolis Beth Redar was voted First Vice President and Monica Burgos was elected to the Parliamentary. These positions will come into effect next year.

Anybody who wants to pursue a career in business should go talk to Mr. Plotner about joning FBLA.

The DECA Club has participated in many different events this year. DECA was a new and exciting experience for it's members.

To start the year off, the DECA Club had the Fall Leadership Conference in Lake Station at Riverview Park. People from Munster, Griffith, and Porter County Career Center were there. This conference gives the different chapters time to know each other.

DECA has given members traveling experience. This year, the Central Region Conference was held in Minneapolis, Minnesota. People were able to visit the famous Mall of America.

It's not only the traveling, you face good competition. You compete on a District, State, and National level. You compete in events that interest you, or the area you work in. For example, a person that works at Hardee's competes in quick service restaurant. You also get credit hours for on-the-job training.

DECA Officers: Trinity Burns, Treasurer; Sandy Alicea, District President; Jaime Smith, Vice President; Delia Santos, President; Mark Garzella, Secretary.

HONOR SOCIETY

Honor Society is a recognition of students who have excelled in all of their academic areas. To be considered, a student must have a 3.0 or "B" average. These students then must meet the requirements for leadership, service, and character. The teachers judge whether or not each student has these qualities. This year, there were 25 members and 30 more were inducted.

Activities

Why do you think it's important to participate in high school activities?

Melanie Pilnock-Senior

"It gets you acknowledged when you're here and remembered when you're gone."

Shannon Menear-Junior

"Because after you graduate you'll be able to look back and say that you were involved in something and the opportunity to get involved won't always be there."

Beth Redar - Sophomore

"I think participating in activities is important because it makes school more interesting and fun. Being in more activities also gives you responsibility. It can make you feel important, sometimes it gives you a reason to come to school."

The sixtieth annual graduation ceremony of Thomas A. Edison Jr. Sr. High School was held on Sunday, June 5th at 2:00 p.m. in the high school gymnasium. One hundred and eleven graduates marched to the processional played by the high school band.

Zach Kinsey, senior class president, gave the welcome speech. Dr. Joseph Blankenbeker was the key note speaker and his address to the class was "If it is to be...then it must start with me." Other speeches were given by the Valedictorian, Laura Martyka, and Salutatorian, Elizabeth Biggs.

Musical selections were provided by both the band and choir. The choir sang *Love Changes Everything* and *You'll Never Walk Alone* and the band played *Hero*.

Principal, Mr. Jeffery Jones, made the presentation of the class and School Board President, Steven D. Beres, presented all but three of the students with their diplomas. Roger Fisher, School Board Secretary, gave his daughter Carlee her diploma, Christine Rich received her diploma from her mother Joan Rich, School Board Vice-President, and Joe Redar received his diploma from his grandmother Liz Redar, a School Board member.

Dr. Charles Costa, Superintendent of Schools gave the closing remarks. The new Edison graduates left the gym ending their educational careers at Edison.

SPIRIT WEEK

Above: Laura, posing for this year's yearbook, letting everyone know that she has school spirit.

This year's spirit week was one of the best ones we ever had. Everyone this year was so excited, they all participated in everything we were offering. The challenge between classes was just about the best thing this year. All the classes were so bound and determined to win. Seniors ended up winning the Anything Goes Games and the window paintings. Most of all, the seniors showed the most spirit.

In second place was the sophomores, they showed outstanding spirit also. They managed to pull off winning the room decoration. Third place was the juniors, they won the class float competition. Last placed in this year's spirit week was the freshmen, but that's okay because after all they are the new comers to high school and they really don't know what to expect. Spirit Week is something everyone should try to participate in because if you don't, not only are you hurting your classmates, but yourself also.

This year's homecoming parade was held on September 24th, 1993 and began at 4:30 p.m. Everyone gathered around Harvey's on Central Avenue to watch as our class floats were being pulled, our band was marching, and the homecoming queen candidates prepared for their big night. Every year the homecoming parade seems to get everyone pumped up for the big game, which takes place only a few hours after the parade.

This year the junior's received first place for their float. At first, it was a sort of class verses class rivalry to prove to one another which class had the most spirit, but, by the end, everyone had pulled together to make this year's homecoming one of the best.

This year's homecoming dance, "Timeless", was held on Saturday, September 25th. According to Mrs. Plotner, the dance was a success. The dance had a great turn-out with 89 couples. It was a video dance by Entertainment Express. The dance was sponsored by Student Council with Heather Richardson and Shannon Menear as co-chairpersons. The dance was decorated in the 20's, 50's, and 60's in different areas.

"Doing drugs is like lighting your own fuse and destroying your world" was the theme for this year's Red Ribbon Campaign.

This year's logo was used to promote Red Ribbon Week locally on billboards, posters, and T-shirts. The logo was created by Marco Magallon, a senior last year at East Chicago Central High School.

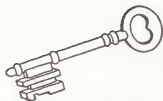

Students were urged to take a stand and declare their choice to remain drug free. The Red Ribbon Campaign took place the week of October 23 through November 1. The Red Ribbon Campaign provides students the opportunity to be leaders in the fight against drugs.

Red Ribbon Week began locally with cheerleaders and athletes wearing red armbands at area football games October 22.

Other School-related activities for Red Ribbon Week were: Oct. 25, Decoration Day; Oct. 26 was Red Ribbon Day when everyone was encouraged to wear red; Oct. 27 was Reach Out Day (Everyone was encouraged to wear this year's Red Ribbon t-shirt); Oct. 28 was "Healthy Me: Healthy You" day; and Oct. 29 was Red Ribbon Recognition Day.

They had a variety of activities to choose from, all ranging from playing a game of volleyball, basketball, limboing, or dancing. LOVE

Take my hand through a journey with me and fly in a cloud of complete ecstasy. My pathway is paved with sprinkles of gold, a light of mystery begins to unfold. Every dream imaginable will come to life in your eyes. The ocean seems powerless to my strength and disguise. I am too precious to capture, yet too important to free. I hold all the answers you are too blind to see. So take my hand through a journey above, together with me, forever with love. Romi Spears

Marriage is a lifetime commitment that is made between two people in love. Making this commitment involves devotion, loyalty, honesty, and of course, respect. Mrs. Roberts talked about the responsibilities required to make it last. Falling in love is just the beginning of a relationship. It takes two people willing to put forth the time and effort to be there for the one they love. Maturity plays an important role in marriage. Hopefully, this class opened the eyes of some students that didn't realize a happy marriage takes a lot of love.

The annual Lip Sync contest was held on May 24, at 7:00 p.m. in the High School Auditorium. The event brought together friends and family for clean, fun entertainment. The students had the chance to express themselves through the music of their choice. A variety of acts were performed. The curtains opened to "Smells Like Teen Spirit," by Nirvana. Following through the night were acts from Ministry, The Beegees, Primus, The Eagles, Tom Petty and the Heartbreakers, and many more. The yearbook staff and the volleyball teams would like to thank everyone who made the Lip Sync a success!

What is the toughest thing about playing high school sports?

Mike Branson - Junior
"Trying hard at practice every day and trying to impress the coaches."

Jill Mitchell - Sophomore
"Playing against such tough competition."

Dale Daniels - Senior
"The toughest thing is the commitment and the dedication you have to make to make a team complete."

The varsity girls volleyball team did not have the season they wanted, but they were able to pull it together toward the end. The team got along well and showed a lot of heart. The Lady Eagles' record was 3-16.

When asked how the team could improve to be better next year, Mrs. Plotner stated, "We need to be taller, serving needs to be better, and also we need more hitters. The team had 6 seniors, so I will be losing some of my experienced players. I plan on working harder with the girls that come to the team next year." Mrs. Plotner also stated, "I love the sport as well as working with the girls."

This year the Junior Varsity Volleyball Team was coached by Mr. Plotner. Mr. Plotner felt that the team had improved very well by midseason. He said they had "potential to continue improving the rest of the season". Their strongest opponent, according to Mr. Plotner, was Kankakee Valley because "they have a strong program from top to bottom".

This year, the freshmen were very talented and had a lot of potential. Mr. Plotner feels that they will be a "good foundation for next year's team". When asked what he plans to do differently next year, Mr. Plotner said he plans to stress team unity and discipline from day one.

FOOTBALL

The 1993 Edison Varsity football team did not quite have the season that everyone would prefer. The Eagles faced many challenges they had to overcome. One being key injuries and another being lack of experience. The Eagles showed a lot of heart, pride for their school, pride in themselves, but most of all they never gave up. The following senior Eagles made great contributions and showed good leadership skills: Jesse Rodriquez, Anthony Hernandez, Willie Whitten, Eric Mock, Jack Stevens, Dale Daniels, and Angel Lopez.

C o a c h
Stanford said, "I was extremely disappointed with our season. It was the first time I've ever gone 0-9 as a coach or a player. It was very hard to accept."

Coach thinks that several players improved as the season progressed, and feels that if the players as individuals dedicate themselves to lifting weights and conditioning all year, the team as a whole will do much better next year.

This year's cross country team did not have enough players to place in a meet. They could have won a few if they had more runners on the team. Eric Woynaroski, a junior, placed first in the NWHC meet this year. He also took seventh place in sectionals, a first for the Cross Country program here at Edison. Michael Vega placed third in the meet, he also placed fifteenth and Jennifer Julian placed thirty-fifth in the girls sectionals.

The season went well considering the limited members. At the conference meet the following team members ranked accordingly: 1st place - Eric Woynaroski, 3rd place - Michael Vega, 34th - Brian Handley, and Carlos DeJesus placed 44th.

BOY'S

The varsity boys tennis team started off their season slowly. They lost the first two home meets to very good teams. After those first two defeats, the Eagles' tennis team got fired up. They won nine out of their next ten meets. The Eagles tennis team also won their own Invitational Tournament.

The Eagles' tennis team won sectionals for the second straight year by beating Gary Wirt 5-0 and narrowly beating River Forest 3-2. The tennis team traveled to Portage High School to face a very good LaPorte team. The Eagles' season ended there as they lost 5-0.

They finished off their season with 12-3 record. Final positions were: #1 Singles - Anthony Coffman, #2 Singles - Michael Branson, #3 Singles - Ryan Vondrak, #1 Doubles - Dan Bryant and Jon Bodnar, #2 Doubles - Ryan Weeks and Steve Blankenbeker.

This year all the seniors played a vital role in leading, whether it was in practice, a game, or in school. Naturally as a team they probably were looking for a few more wins, but they all felt that the team had played and practiced hard enough.

This year 5 seniors, who played many minutes this season, will graduate from school and from the team. The younger players will be okay if they play and practice as well as they're expected to, and the players are sure to respond.

When asked what he would like to say about this year's basketball team, Coach Glover responded, "I was happy with the way the team came together and played their best basketball at the end of the season. Our seniors showed a great deal of pride through their leadership and were great representatives for the school and community."

The J.V. Basketball team went 3-17 for the season. Coach Johnson said, "No one stood out during the season." He also said that all of their opponents were hard to play against because his team shot the ball poorly, but he said they all played their hardest during the season.

This year's freshmen basketball team had an over all record of 9-6. Coach Vondrak said, "My team was very competitive, and they would never give up." He also said, "This team will have much success throughout the high school years." He went on to say that if this year's team would practice and play together, they would have a serious goal in mind and could have very good teams at Edison High School.

VARSITY GIRL'S

Below: Jill Mitchell is concentrating on her blocking out after Kristy shoots the ball.

This year's Varsity Girl's Basketball team was very young. There were two seniors: Laura Marykta and Theresa Hurt. Also, there was seven juniors.

This year the girl's team had a lot of work cut out for them. Miss Walter, the coach, said, "The girls had a lot in them, and they would be just as competitive than any other team, all they would have to do is have a little confidence in themselves."

As a team the girls did alright. At the beginning the girls really didn't want to listen to the older girl's who were trying to take leadership, but as the season went on the girls began to realize that fighting with each other was not the proper attitude that they were suppose to show toward the team.

When asked if she expect her first year coaching the Edison girl's varsity team to turn out the way it did, Miss Walter replied "I came in here and thought that I would be able to coach on how well the girls got along with me and how well the girls really wanted to win." At the end of this year's season, all the girls became really close friends and the last game was a sad moment, but also a proud moment. Miss Walter said, "I never knew a better group to coach or just to be friends with."

The JV Girl's Basketball team didn't have the season that they would have liked due to the lack of experience and the low number of players out for the team. There were seven players on the team and six of them were freshmen.

Coach Renn said, "The girls always gave 100% each day in practice and in games, even if the other team was a lot better than they were. We also had a couple of good rebounders in Kristina Vega, Crystal Nush, and Krystin Halford. Most of our scoring came from our leading scorer, Tracy Purcell."

The Varsity Wrestling team had a final record of 8 wins and 5 losses. Their conference record was 3 and 1. The only loss in conference was against Lowell.

At sectionals, the wrestling team was told they won, but due to poor counting they had to give the trophy back. Although they lost the trophy, they had 5 sectional champs. Altogether the team had 8 regional qualifiers. At regionals, Danny Chavez at 119 lbs. and Jesse Rodriguez at 152 lbs. placed high enough to go to semi-state. After semi-state, the only wrestler to advance was Danny Chavez, but he came up short at state.

This year's Boy's Track team had an overall record of 2 wins and 6 losses for fifth place in the conference. Coach LoCascio said that the strongest events for the team this year were distance runs, discus, and high jump with standouts Chris Renn, Jesse Rodriguez, Michael Vega, and Eric Woynaroski. Chris Renn set a school record at regionals with a discus throw of 152'8". Eric Woynaroski set a school record at sectionals in the 2 mile with a time of 9:34. Both Eric and Chris went to State Competition, where Eric placed 14th with a time of 9:45. Unfortunately, Chris didn't place with his 138'5" throw.

GIRL'S

Above: Jill Havard puts the hurdle into place before running.

Although the Girl's Track Team worked hard, they successfully defeated only one of their opponents. "The team didn't have a captain or a leader," says Coach Schmelzer. She also says, "Our running events were our strongest areas, we finally had some girls eager to run long distance, and the hurdle team was also strong."

None of the girls advanced to regionals, but two of the girls set school records: Jill Mitchell - 100m hurdles in 16.5 seconds, and Jennifer Julian - 3200m run in 12.4 minutes. Few injuries helped make the team hard to beat. About twenty-one girls tried out for the team, but only seventeen finished the season.

When asked if he was happy with his team, Coach St. Germain didn't hesitate in saying yes. Coach St. Germain feels that a lot of progress was made this season.

He also said that the Eagles learned a lot about their abilities and the abilities of their fellow teammates.

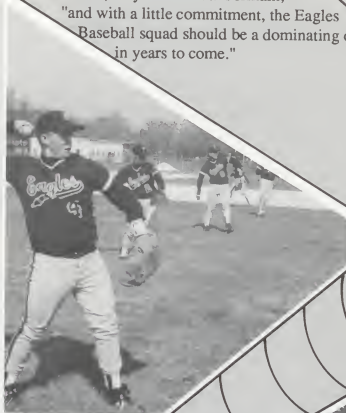

"To be successful in anything, you need commitment," says Coach St. Germain, "and with a little commitment, the Eagles Baseball squad should be a dominating one in years to come."

There were several players that moved up to Varsity after the season: Jonathan Biggs, Stephen Blankenkaker, Ryan Haas, Wendell Hite, James Spasoff, and Ryan Vondrak.

Coach Salomon said, "The outlook for the coming years is good because of a solid pitching staff and many of the position players returning for next year. If we can keep the positive attitudes we should see an improvement." He added, "This year's team practiced hard this season and they are one of my harder working teams."

SEBALL

This year's Girl's tennis team consisted of only one senior: Monica Moss. There was a lot of potential on the team, which made them want to work really hard to reach their goals. They had their rough times, but managed to concentrate really well. This helped the team out in many ways: they would cheer each other on when not playing, they always had something nice to say to a team member, whether they had won or lost. Next year they hope to improve and to make a better team.

The Eagles' Golf Team had a very pleasing season according to Coach Loscaro. "Corey Clendaniel and Jason Adams were a very big help to the team," says Coach Loscaro. "They showed a lot of leadership and made much improvement. There were eighteen boy and girl golfers on the team. This year was really a learning experience. I am anticipating a much more experienced and competitive team next season."

We often think what it's meant to us over the years to have you for our daughter. We think of all the pride you've brought as we have watched you grow and the joy we've shared in your achievements.

You're such a special daughter and a very special person with so many unique qualities inside. The woman you've become has such a lot to offer life, and that fills our heart with happiness.

*Love,
Mom & Dad*

Carlos DeJesus

It seems like only yesterday that you were just a boy doing all the carefree things that little boys enjoy: the sports, baseball bats and hats, the gloves, the mess, the noise we thought we'd never miss. We realize you've changed a lot since then, and how you've grown into the fine young man you are today.

Son, you are our warmth, hope, and promise... the pride of our hearts.

Love,
Mom & Dad

What is the best
thing about
Edison?

Amy Matlock - Senior
"For me, the best thing about Edison has always been the size. I know almost everyone, and I'm graduating with a lot of people I went to kindergarten with."

Michael Soto - Junior
"That it is a small school, and everybody knows everybody."

Katrina McDonald - Sophomore
"The best thing about Edison is all the teachers and you see your friends."

the 1990s, the number of people in the UK who are aged 65 and over has increased by 1.5 million, and the number of people aged 75 and over has increased by 1.2 million (Office of National Statistics 1999). The number of people aged 85 and over has increased by 0.5 million.

There is a growing awareness of the need to address the needs of the ageing population. The Department of Health (1999) has published a strategy for ageing, which sets out the government's commitment to improve the lives of older people. The strategy is based on three main principles: (1) to ensure that older people are able to live independently and actively; (2) to ensure that older people are able to access the services and support they need; and (3) to ensure that older people are able to participate in the life of their communities.

The strategy is based on the following assumptions: (1) that older people are a diverse group with different needs and interests; (2) that older people are able to live independently and actively; (3) that older people are able to access the services and support they need; and (4) that older people are able to participate in the life of their communities.

The strategy is based on the following objectives: (1) to ensure that older people are able to live independently and actively; (2) to ensure that older people are able to access the services and support they need; and (3) to ensure that older people are able to participate in the life of their communities.

The strategy is based on the following measures: (1) to ensure that older people are able to live independently and actively; (2) to ensure that older people are able to access the services and support they need; and (3) to ensure that older people are able to participate in the life of their communities.

the 1990s, the number of people in the UK who are employed in the public sector has increased by 1.5 million (1990–1999) (Department of Health 2000).

There is a growing emphasis on the importance of the public sector in the provision of health care services, and the need to ensure that the public sector is able to meet the needs of the population. This has led to a number of initiatives aimed at improving the efficiency and effectiveness of the public sector, including the introduction of competition, the restructuring of the public sector, and the introduction of new management practices. These initiatives have led to a number of changes in the way that the public sector operates, and have resulted in a number of improvements in the quality of health care services.

One of the key challenges facing the public sector is the need to ensure that it is able to meet the needs of the population in a cost-effective manner. This has led to a number of initiatives aimed at improving the efficiency and effectiveness of the public sector, including the introduction of competition, the restructuring of the public sector, and the introduction of new management practices. These initiatives have led to a number of changes in the way that the public sector operates, and have resulted in a number of improvements in the quality of health care services.

Another key challenge facing the public sector is the need to ensure that it is able to meet the needs of the population in a timely manner. This has led to a number of initiatives aimed at improving the efficiency and effectiveness of the public sector, including the introduction of competition, the restructuring of the public sector, and the introduction of new management practices. These initiatives have led to a number of changes in the way that the public sector operates, and have resulted in a number of improvements in the quality of health care services.

A third key challenge facing the public sector is the need to ensure that it is able to meet the needs of the population in a sustainable manner. This has led to a number of initiatives aimed at improving the efficiency and effectiveness of the public sector, including the introduction of competition, the restructuring of the public sector, and the introduction of new management practices. These initiatives have led to a number of changes in the way that the public sector operates, and have resulted in a number of improvements in the quality of health care services.

Finally, a fourth key challenge facing the public sector is the need to ensure that it is able to meet the needs of the population in a fair manner. This has led to a number of initiatives aimed at improving the efficiency and effectiveness of the public sector, including the introduction of competition, the restructuring of the public sector, and the introduction of new management practices. These initiatives have led to a number of changes in the way that the public sector operates, and have resulted in a number of improvements in the quality of health care services.

In conclusion, the public sector is facing a number of challenges in the 1990s, and it is essential that it is able to meet these challenges in a cost-effective, timely, sustainable, and fair manner. This requires a number of initiatives aimed at improving the efficiency and effectiveness of the public sector, including the introduction of competition, the restructuring of the public sector, and the introduction of new management practices.

Volume 53 of the Thomas Edison High School yearbook was published by Walsworth Publishing Company of Marceline, Mis-

souri. Mrs. Valerie Tanke, company representative, was responsible for giving directions to the production.

The yearbook is a production of the students under the guidance of Mrs. Jan Georgion, and student editors, Jennifer Perryman and Misty Mote, were responsible for coordinating layout designs, proofing and editing copy, and final proofreading of each page.

The layouts, using 4 column design were primarily done on the PageMaker Program on the Macintosh Computers. Typestyler program was used for many of the headlines.

Paper stock of the 208 page book is 115-pound Signature Gloss. Various spot colors were selected from the Walsworth color ink book.

Graphics were hand drawn and then scanned on the Apple Scan program to change the size or add lettering. Screen tints are from 10% to 100% black. Backgrounds were produced by Walsworth and the Edisonian staff.

The cover was made using lithograph 4 color process. The theme for the book originated from the Editorial Staff and then Senior Zachary Kliney did the preliminary art work. The final art work was completed by a Walsworth Company artist.

All 4 color prints were professionally developed. The Photographers of Midstates took all the senior class individual pictures as well as group, class, and occasionally physics. There is a fictional page from all of the senior biographies and faculty anniversary photographs.

Printing of 100000 copies was made in 4 and 6 color with double. The size is 9 1/2 x 12 inches.

For more information, contact: Thomas Edison Company, Box 1000, Marceline, Missouri 64658, and telephone area.

All Walsworth Company products are printed on high quality and selected materials and are printed on a 100% recycled paper.

Walsworth Company is a member of the National Association of Publishers and the International Association of Book Publishers.
